

## Product datasheet

### uvex 2 trend 6904 1-3

Safety boot DIN EN ISO 20345:2022+A1:2024 S1 PS FO SC SR

Sizes: 35 - 52 | Width: 10, 11, 12

### AREA OF APPLICATION

Medium applications usually alternate between indoor and outdoor areas, meaning that the demands on the robustness of the outsole of a safety shoe are much higher.

### OUTSOLE

Dual-density polyurethane sole

- PU outsole
- shock-absorbing PU midsole with 10% recycled granulate from residues
- antistatic
- short-term heat-resistant up to 120°C
- excellent slip resistance (**SR**)
- oil- and fuel resistant (**FO**)
- free of silicones, plasticisers and other substances that interfere with wetting agents

## FEATURES

|                     |                                                                                            |
|---------------------|--------------------------------------------------------------------------------------------|
| Upper material      | • breathable textile ( <b>clima zone</b> )                                                 |
| Lining material     | • breathable textile lining                                                                |
| Fastening           | • laces                                                                                    |
| Reflecting elements | • for increased visibility even in dark working environments                               |
| Comfort             | • soft padding on collar                                                                   |
| Innersole           | • sizes 35-40 have been produced using a women's last<br>• removable comfortable innersole |

## PROTECTIVE FEATURES

|                        |                                                                            |
|------------------------|----------------------------------------------------------------------------|
| Toe cap                | • steel protective toe cap                                                 |
| Penetration resistance | • metal-free, textile penetration resistance (tested with 3 mm test nail)  |
| Scuffcap               | • out of TPU for additional protection of the upper material ( <b>SC</b> ) |

## CERTIFICATES

|                |                                                                                                                             |
|----------------|-----------------------------------------------------------------------------------------------------------------------------|
| uvex medicare+ | • certified for orthopaedic innersoles and shoe adjustments according to the description in <b>DGUV 112-191</b>             |
| 100% vegan     | • certified free from animal ingredients and products<br>• additional protection for people with allergies and intolerances |
| ESD            | • protection against electrostatic charge according to EN 61340-4-3 und EN 61340-5-1                                        |

## SUSTAINABILITY

|                                |                                                                                                                                                                                        |
|--------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| CO <sub>2</sub> footprint      | • 8.90 kg Cradle-to-Customer (calculation date 10/2025)                                                                                                                                |
| Recycled/sustainable materials | • midsole, innersole and penetration resistance made wholly or partly from recycled materials<br>• free from harmful substances in accordance with the uvex restricted substances list |

## ACCESORIES/ SPARE PARTS

|                       |                 |
|-----------------------|-----------------|
| Replacement innersole | • 9518 7-9      |
| Laces                 | • black 8446023 |
